BOOK SYNOPSIS

"Breaking the silence that characterizes the history of disability in the United States, *Becoming Citizens* is a substantive contribution to social and regional history. It demonstrates the ways in which personal experiences can galvanize communities for political action. The centerpiece of the book is the story of four mothers-turned-activists who coauthored *Education for All*, a crucial piece of Washington State legislation that was a precursor to the national law securing educational rights for every person with a disability in America."--Jacket.
